

DARTING, PIERCING  
SCIATIC PAINS

Give way before the penetrating effects of Sloan's Liniment.

So do those rheumatic twinges and the loin-aches of lumbago, the nerve-inflammation of neuritis, the wry neck, the joint wrench, the ligament sprain, the muscle strain, and the throbbing bruise.

The ease of applying, the quickness of relief, the positive results, the cleanliness and the economy of Sloan's Liniment make it universally preferred. 30c, 50c, \$1.20.

WASHINGTON GAVE  
ADVICE TO MAKERS  
OF CONSTITUTIONS

And It's as Good in These  
League of Nations Days  
as It Was in 1787.

Further testimony that the builders of the Constitution of the United States were no more immune from criticism than those who seek to build a world Constitution which shall do away with war is furnished by a letter George Washington wrote in 1787 at Mount Vernon.

Gen. Washington's letter, addressed to Col. Humphreys, is one of the autographed treasures in the collection of Adolph Lewisohn, who furnishes The Evening World with the following copy of its text:

"Mount Vernon, Oct. 10, 1787.

"My Dear Humphreys: Your favor of the 28th ult. came duly to hand, as did the other of June. With great pleasure I received the intimation of your spending the winter under this roof. The invitation was not less sincere than the reception will be cordial. The convention shall be that in all things you shall do as you please—I will do the same. No ceremony shall be observed—nor any restraint be imposed on any one.

"The Constitution that is submitted is not free from imperfections; but there are as few radical defects in it as could well be expected, considering the heterogeneous mass of which the convention was composed and the diversity of interests which were to be reconciled. A constitutional door being opened, for future alterations and amendments, I think it would be wise in the people to adopt what is offered to them, and I wish it may be as great a majority of them as in the body that decided on it; but this is hardly to be expected, because the importance and sinister views of too many characters will be affected by the change. Much will depend, however, on literary abilities, and the recommendation of it by good pens, should it be openly, I mean publicly, attacked in the gazettes. Go matters, however, as they may, I shall have the consolation to reflect that no object but the public good and that peace and harmony which I wished to see prevail in the convention, ever obtruded, even for a moment, in my mind, during the whole session, lengthy as it was. What reception

Headache-Depression?  
FROM KIDNEY DISORDERS

Headaches and depression may be due to several causes. Perhaps you are mystified by them. May be kidney and bladder disorders is the cause? If so, you surely want relief and restoration.

Indiscretions in eating and drinking bring on such troubles very gradually, sometimes—at other times quickly.

this State will give to the proceedings (thru' the great territorial extent of it) I am unable to inform you. In these parts of it, it is advocated beyond my expectation. The great opposition, if great is given, will come from the counties southward and westward; from whence I have not, as yet, heard much that can be depended on.

"I condole with you at the loss of your parents; but as they lived to a good old age you could not be unprepared for the shock; tho' there is something painful in bidding an adieu to those we love, or reverse, when we know it is a final one. Reason, religion and philosophy may soften the

anguish, but time alone can eradicate it.

G. O. P. State Executive Committee Meets March 19.

After a talk between Chairman Glynn of the Republican State Committee and Hertram Snell, Chairman of the Executive Committee, a call was issued yesterday for a meeting of the Executive Committee in Albany March 19.

CITY PROTEST AT STATE  
TEACHERS' PAY MEASURE

Also Will Object to Firemen's Bill, as Mayor Gets No Chance to Veto.

ALBANY, March 11.—New York will protest at a hearing to-day against the Hinkley bill, proposing a three platoon system for firemen in all cities of the State. The city's representatives have estimated that should the bill become a law it would mean an additional burden of \$2,000,000 yearly upon the taxpayers of the metropolis.

City officials will also appear in force at a hearing on Wednesday on all bills proposing increases in salaries for school teachers. They will direct their protests mainly against a state-wide measure backed by the Board of Regents, State Federation of Labor and numerous civic organizations. This would saddle from \$10,000,000 to \$15,000,000 a year of expense upon New York City alone.

By making both the teachers' salary bill and the three platoon measure state-wide in their application, the bills will not go to Mayor Hylan for his veto or approval. The city is thus deprived of the right to indicate through the action of the Mayor whether the measures are objectionable.

GREATEST  
NEW YORK

NEW YORK CITY today is the meeting point of two great lines of travel—one coming out of the East brings home to us those who went to war overseas—the other coming from all parts of our own land brings thousands on business, for pleasure or to welcome the boys who are coming home.

In normal times a city of five million people with a daily transient population of a quarter of a million more, New York today soars far above these peace time figures. Seventy-three per cent of the thousands of troops coming from overseas are landed at the port of New York! The transient population varies, in the estimates of research bureaus and city officials, from one-half to one and one-half million!

New York has absorbed another city comparable in size with Buffalo or even Philadelphia!

Small wonder then that New York City's transportation lines are crowded—that its hotels cannot meet the almost unimaginable demands—that its places of amusement turn away thousands who cannot be accommodated—that its streets hold greater masses of humanity than ever before—

Small wonder, too, that its telephone system faces the zenith of all demands for service—the greatest demand of any one city in all telephone history!

Thousands of war-worn overseas men are turning to the telephone as soon as they arrive as the quickest means of reaching home and friends. Thousands from all over the land, who have been pouring in to welcome at the gates of the country *their own* from overseas, are adding their quota to each day's telephone traffic.

New York City's Telephone System designed for normal needs and normal growth is today, at the end of nearly two years of restricted telephone construction, meeting the *abnormal* telephone demands of New York City, *plus the demands of a transient population equal to the permanent population of one or two other big hustling American cities!*

And the sum total of this demand is three and one-quarter million calls a day, *more than twice the number of calls sent in the same period by London, Paris and Rome combined!*

While the demands made upon the Telephone Company by permanent residents and guests within the City are being met as well as reconstruction conditions permit, the quality of the service cannot be as high as that which obtains in normal times. The problem is a big one but it will be solved in a way that will bring again to the City the same high quality of telephone service maintained in pre-war times.

These facts are submitted to you with the belief that a frank discussion of New York City's telephone problems will insure your confidence and cooperation.

## ASK YOUR NEIGHBOR!

If you feel dull, disry-headed, back aches, and feel "all in," go to your neighbor and ask her the secret of her health. Usually she will tell you that it was by taking a temperance tonic and nerve, known as Dr. Pierce's Favorite Prescription.

All women who suffer from feminine disorders are invited to write the Faculty of the Invalids' Hotel, Buffalo, N. Y., for free confidential

consultation and advice, no charge being made for this high professional service. This will enable every woman to benefit by the advice of the distinguished corps of physicians which Dr. Pierce has gathered about him in his celebrated Buffalo institution.

## Small But Effective

Was the little Monitor that met the Merrimac at Hampton Roads. So too are Doctor Pierce's Pleasant Pellets effective in Bilious and Sick Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels. Put up in sealed glass vials, always fresh and reliable. Purely vegetable. The favorite pill for 50 years.
